2010	12,000	93.7%	91.3%	95.5%	**	**	**	**
2011	12,100	94.6%	92.4%	96.2%	**	**	**	**

**The estimate has been suppressed because 1) The relative standard error is greater than 50% or when the relative standard error can't be determined. Consider aggregating years to decrease the relative standard error and improve the reliability of the estimate. 2) the observed number of events is very small and not appropriate for publication, or 3) it could be used to calculate the number in a cell that has been suppressed.
